Improving the statistical Bureau.

Washington, September 19.—Colonel Switzler, chief of the bureau of
statistic, is preparing a codification
of the law governing the bureau with
sundry amendments, for submission
to the secretary of the treasury, with
a view of obtaining the latters recommendation for their chactment by
congress. The revised regulations
designated to define more clearly the
scope of the work of this bureau; to
secure greater accuracy in the statistics of emigration from Canada and
through the dominion and Europe,
and to so amend the existing laws as
to make it possible to obtain full and
accurate returns of our inland exports to Canada and Mexico. It
is further proposed to change
the name of the bureau to "Bureau
of Commerce." Colonel Switzler is
also considering the advisability of
recommending that the federal cenbureau.

MEXICO.

The Floods Continue—No Trains.

Ciry of Mexico, September 29—Rains continue throughout the southern portion of the republic and the Mexican National railway has experienced bad washouts between Celia and San Migiel. On the Mexican Central Railway there are seven gangs of workmen, some 1800 men in all, engaged in making repairs as fast as the rains will permit. General-Superintendent McKenzle is directing the repair work which, it is intended, shad be of the mest substantial character. One estimate is that it will cost between \$60,000 and \$75,000 to repair the washouts. It will probably be necessary to re-lay the entire track between Marissala and Celyia, about twenty-five kilometers. An

track between Marissala and Celyia, about twenty-five kilometers. An iron bridge was washed away by the torrent, tearing off the girders as if they had been so many straws.

The Two Republies says, "provided no more rain falls in the flooded distribt, through trains, it is expected, can run to and from KI Pase by Wed-inesday or Thursday. No mail has yet come through from the United States." The same paper also says: "The last trouble occurred on kilometer 204, beyond San Juan Del Rio. The takes that inundate the country broke over 100 march 100 feet in length and until the water flows off or lowers considerably it will be impossible to tell now muchof the track was washed asway. There was

diplomatic action towards both Turkey and Bulgaria, so as to prevent a conflict between them and thus allow signers of the Beriin treaty time to discover a solution more in harmony with the interests of Turkey and the halance of power in the east General peace will be maintained when the Eastern question is under the segis and moral authority of Europe, and the pacific tendency of the powers admits of a hope that the cisis will not angment and that what at first appeared as a difficult problem will be promptly solved.

HABER.

CALCUTTA, September 29.—Disastrous floods covering an area of 3500 miles have occurred in the presidency of Bengal the largest and most populous of the twelve main divisions of British India. A great amount of property has been destroyed and a number of lives lost. Many families have been made destitute, and houses, crops, cattle and portable goods of every description have been carried away by the floods. The government authorities are distributing provisions and clothing and doing all they can to relieve the sufferers.
